

HCI and Design 2018

March 15th Digital Prototyping Activity

YOUR TASK

Use any digital prototyping tool you want (e.g., Sketch, Figma, Origami, InVision) to create a prototype digital lunch-menu for the Cornell Tech cafe.

- Your prototype **MUST** include at least **THREE** different components
(use material.io list of components)
- Your prototype **MUST** include a color palette of your choice
(use adobe color tool or material.io color tool to create a color palette)
- Your prototype should **MUST** include a typeface / font family of your choice
- You do **NOT** need to add interaction (i.e., make it clickable) although you are welcome to do this if you have time

WHAT TO SUBMIT

1. A screenshot of your final prototype
2. Say what digital prototyping tool(s) you used
3. Say what type of color palette you created (e.g., complementary, analogous, triadic, etc.) and include a screenshot of your color palette
4. Say what typeface/font family and specific fonts you chose for your prototype and **WHY** you chose them

UPLOAD

Create a pdf of your activity and upload it to this folder: <http://bit.ly/2pd02YZ>
